SYNOPSIS. Copyrighted, 1891, by N. Heimer. The cause of all diseases is primarily a disturbance in the equilibrium of the wital forces, causing inflaments the equilibrium of the vital forces, causing inflamina-tion and fermentation or incipient decay is the blook, and fermentation generally settling in the weakest spot. It makes no difference whether this weakest spot is the liver, the kidneys, or the lungs; the disease is essentially the same. Microbes or beeful only de-velop in the organs after fermentation has set in, a fact that forces the microbe theory to the wall, A HEALTHY PERSON NEED NEVER WORRY ABOUT MIGROSES.

MICROBES. To counteract this fermentation in the system I have To counteract this fermentation in the system I have invented, and successfully applied, a method of safely administering the active principle (ozons) of freezons to eight ounces of Peroxide of Hydrogens—113 O2-at one time Persons unacquainted with this remedy are informed that it has been known for years to the scientific world as the greatest autiseptic known, killing microbes instantly wherever applied, and successfully prescribed by leading physicians in cases of diphtheria, catarth, bromittle (exporthes, riceumstiam, dyspenia, &c. Its chitis, ieucorrhea, rheumatism, dyspepaia, &c. Its characteristic peculiarity as an antiseptic (SIXTI-FOUR TIMES MORE POWERFUL THAN CARBOLAC ACID) cousists in its perfect harmiemness to healthy tisgue, and its instantaneous annihilation of all pus matter. My theory, fact paved and sustained by rea-aou and nature. AS WELL AS BY TESTIMONY WHERE APPLIED, is this: The exone liberated by my process of intaintion is instantly absorbed by the blood, through the lungs, and that no sufferer from disease can follow it faithfully for a month without feeling greatly improved, if not altogether cured, for "peroxide of hydrogen, when scientifically applied, is nothing more nor less than an ideal tonic!" Investigators are wilcome to one trial of my bi-ozone cure free, at my office, 822-24 Broadway, corner 12th st. Very respectfully, N. RELMER, Author and Inventor.
